WILDFIRE ACTIVITY MAP

Current to:
SEPTEMBER 12, 2017

Estimated Wildfire Detection

Fire Activity (past day)

Fire Activity (past week)

Official Active Fire Perimeter

1:450,000

0

10

20

km

NOTE: FIRE PERIMETRES
ARE ESTIMATES ONLY

Fire data is a compilation of BC Provincial wildfire perimeters and buffered fire detection points from VIIRS satellite as compiled by USGS. Areas labeled are current day estimates from BC Provincial perimeters.

Fire perimeter does not necessarily indicate instances of wildfire. Fire detection from VIIRS satellite may be due to heat detection in smoke. Please interpret with discretion.
