

North Klinaklini

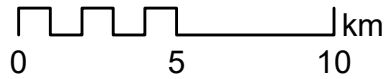

WILDFIRE ACTIVITY MAP

**Current to:
AUG 20, 2018**

Estimated Wildfire Detection

-  Fire Activity (past day)
-  Fire Activity (past week)
-  Official Active Fire Perimetre
-  2017 Fire Perimeters

1:240,000

**NOTE: FIRE PERIMETRES
ARE ESTIMATES ONLY**

Fire data is a compilation of BC Provincial wildfire perimeters and buffered fire detection points from VIIRS (375 m.) Satellite as compiled by USDA Forest Service, Remote Sensing Application Centre.
Areas labeled are current day estimates from BC Provincial perimeters.

Fire perimeter does not necessarily indicate instances of wildfire. Fire detection from VIIRS satellite may be due to heat detection in smoke. Please interpret with discretion.
