Columns B & C within the table below represent what will be displayed on the TNG Portal website when you display the "Priority Site Form". Column A is used to build the form because it identifies the type of field for each piece of text. This information is not relevant to the average Portal user. Column D identifies whether or not the answer is required to be part of the shapefile, and identifies which attribute name in the shapefile.

Required and optional documents to include with submission are:

- Point Shapefile(s) identifying an *approximate* 'centre of interest' at the heritage site/cultural place;
- Polygon Shapefile(s) identifying an *approximate* 'minimum extent of interest' of the heritage site/cultural place;
- PDF "Site Profile" document.

PrioritySite Schema – These submissions only accommodate point and line features. Values in the attributes (fields) can be duplicated, but if there is more than one unique feature in a shapefile they should be identified individually in the PSiteID field.
